

Revitalising and deeply penetrating - the new medisana HM 650 hand massager for effective home use

Neuss, 18.05.2022. Countless people regularly suffer from pain in the back, neck or other areas of the body. A soothing massage can usually provide quick relief. But what if there's no-one around to give you a massage?

Then what you need for a self-massage is a handy hand massager, just like the new **HM 650 hand massager** from medisana. The powerful percussive motor provides a particularly deep-penetration tapping massage, ensuring physical well-being and relaxation after a strenuous day. It effectively reduces muscle tension, relieves pain and promotes circulation. The HM 650 transmits soothing vibrations to the body's tissue and muscles. Six different massage heads ensure the right attachment for every need. The massager can be used flexibly all over the body or targeted to act exactly where you feel pain. The long, ergonomic slip-proof handle allows you to massage all areas of your body, from the neck and back to the feet.

And best of all: not only can you enjoy the revitalising tapping massage at home, thanks to the medisana HM 650 hand massager's rechargeable battery, you can also take it with you when you're on the go. The massager is equipped with stepless speed control, and switches off automatically after 15 minutes.

The medisana HM 650 hand massager is available in specialist retail stores and at www.medisana.de for the price of € 89.95 RRP.
